

EDITORIAL COMMENTS.

There is no chilly sensation about the present September morn.

Dr. Dumba's initials are K. T. It seems to have been a case of K. T. did.

Dixon feasted the Bee-Liners on 400 chickens. And Bill Howell wasn't there!

Germany is believed to be preparing to Belgiumize Roumania in order to reinforce Turkey.

Three Evansville mills are running day and night to fill a foreign order for 40,000 barrels of flour.

Alfred Britton, 14, ran away at Frankfort rather than go to school and his father has offered a reward for him.

England is at last talking of conscription. That's the right dope. Let the strikers be put in the trenches.

Charles Dobbs, Socialist candidate for Governor, made a speech in Louisville last night. This Charlie is Dobbs, who used to be a reporter on one of the Louisville papers.

An auto with ten passengers rolled down an embankment 200 feet in Utah and nobody was killed outright. An infant of three months old escaped without a scratch.

State Controller Emerson C. Harriington decisively defeated United States Senator Blair Lee for the Democratic nomination for Governor at the state primary in Maryland.

Fourteen staff officers of Gen. Urblina's force were executed with Urblina as the result of Villa's visit to Urblina's ranch at Las Nieves last week, according to an American who arrived at El Paso.

Geo. D. Young, 40, and his daughter Nellie, 16, figured in a double wedding at Jeffersonville. The father married a girl of 22 and the daughter a young farmer of 21. All live in Barren county.

They had a meeting Wednesday night at which Claude Clark, Tom Underwood, John Duffy, John Feland and Green Champlin were all left off the program. Incredibly as it may seem, they had it.

The watermelon famine has been the blow that has almost killed Rastus. It was bad enough to be out of work all through the harvest season, without having to look at imported 50-cent watermelons through a show-window.

The State Association of Jailers held its annual meeting in Louisville this week and the local newspaper men and members were dined by Jailer Foster behind locked doors. Col. Bob McBride and other speakers talked to them.

A humorously inclined citizen of Grayson, Ky., 40 years old, put pepper in the tobacco pouch of an old fellow named McGuire, whereupon the old man's nephew fired the contents of a shotgun into the joker. He may live, but will not be so smart.

Edward A. Mooree—whatever he is—wants the United States public health service to spend money advertising for sanitary purposes. That pleases the newspapers. Heretofore, they have printed all the stuff as pure reading, and without an adyline.—Tennessean.

Five hundred candidates have been accepted by the Department of the Lakes of the United States army to participate in the business and professional men's military training camp, which opens this month at Fort Sheridan, Ill. The committee expects to have 1,000 men in the camp by opening day.

MULE RACE AT THE FAIR

Traveling Men Will Pull Off a Stunt That Will Be a Winner.

TO RIDE UNBROKEN MULES Saved Till The Last Day as There May Be Tragic Events.

Saturday, October 2, will be Traveling Men's day at the Pennyroyal Fair and big preparations are being made to have that one of the biggest successes of the entire fair. There are a large number of traveling men who reside in Hopkinsville and they are all enthusiastic over the proposition. But the matter will not end with them, for other traveling men all up and down the road will be enlisted, and as many of their customers as possible, to be here on that day and enter into the festivities.

All sorts of advertising will be done for this feature of the fair. Lithographs, banners and stickers will be left in every hotel, prominently displayed throughout this section of Kentucky and Tennessee, so as to attract the attention of all traveling men and other people as well. Stickers will be affixed to grips and trunks as the traveling men are at depots and hotels and they will put in every opportunity to pass the news along by word of mouth.

On that day it is expected that not less than two hundred traveling men will be here to take part in the gala occasion. These will meet at Hotel Latham on the morning of October 2 and at 10:30 they will form in line and headed by the Third Regiment band they will march to the fair grounds. Each traveling man will be appropriately tagged and at the fair grounds space will be reserved for them in the grandstand and every possible arrangement, looking to their pleasure and comfort will be made.

The traveling men will put on a mule race in which about 20 will enter. The mules have been secured, many of them unbroken. Arrangements will be made to issue accident policies before the race, which is expected to be a hummer.

Bond will be required to cover injuries done to fences or crops in the vicinity.

Saturday will be the concluding day of the fair which is always one of the most popular days. It will be Derby Day and with Traveling Men's day added it is assured that one of the largest crowds ever known here will attend the fair that day.

A committee to perfect arrangements for Traveling Men's Day has been appointed as follows: J. W. Robertson, Guy Champion, R. J. Utley, A'x Boulware, L. H. Davis, F. K. Yost, Edgar Wyatt, F. H. Mason and Garner Dalton.

SUES FOR A DIVORCE

The Plaintiff States That They Lived Together Only Two Days.

Mrs. Florence E. Ward sues Herman D. Ward for divorce. Plaintiff states in her petition that they were married Aug. 14, last, and lived together as husband and wife until Aug. 17, when they separated, without any fault on her part. She prays for a judgment also, allowing her \$20 per month for her support and maintenance, and on trial of the action, she asks for judgment for alimony in a lump sum of \$1,000.

BROKE AN ARM.

Charles Miller, of Herndon, fell from the roof of his barn a few days ago and one of his arms was broken, and he sustained painful bruises from which he is recovering.

BEE LINE TO BE SHORTEST ROUTE

Canvass of Northern Commissioners, Indicates Probable Course of Great Highway—Route to Run Through Madisonville, Hopkinsville, Pembroke and Guthrie to Springfield.

RUSSELLVILLE BRANCH LINE FAVERED.

PROBABLE BEE LINE ROUTE. Henderson to Madisonville, a contest between the Sabis-Slaughterville and Dixon lines in this portion is yet to be settled.

Madisonville to Hopkinsville, following general line of the L. & N. railroad.

Hopkinsville to Springfield, Tenn., via Pembroke, Trenton and Guthrie. The Dixie highway will be joined at Springfield, leading thence straight south to Nashville.

A branch route from Madisonville running east of the main line through Muhlenburg and Logan counties, Ky., and striking Dixie highway at Russellville.

The main line runs due south, except from Hopkinsville to Springfield, which is southeast.

Brief mention was made of the speaking program at Virginia Park Wednesday night. The crowd was one of the largest ever assembled in the park. It was easily the biggest gathering that confronted the visitors anywhere on the line. There were not fewer than 3,000 people and the correspondent of the Evansville Courier, Mr. Earl V. Hitch, saw 6,000.

R. E. Cooper graciously presided and introduced W. R. Howell, who made a five-minutes talk welcoming the visitors and telling of the great work in which they were engaged.

W. T. Fowler and C. R. Clark magnanimously agreed to put their speeches on ice and save them till next time, and the speaking was nearly all done by the visitors.

Mayor Bosse was the first one and he was giving a rousing ovation as the leader of the movement. He is a big jovial man, with a double supply of energy and magnetic force. It is said he has made a million dollars in sixteen years speculating in Evansville real estate. He praised Hopkinsville above all places he had seen and said there was no doubt that the line would run to Hopkinsville and "on south."

Dr. I. M. Casebeer, of Newport, Ind.; C. H. Stratton, of Sullivan, Ind.; Mayor E. E. Noble, of Princeton, Ind.; A. C. Reichardt, of Evansville; Dr. E. B. Cooley, of Danville, Ill., and Hon. Mason J. Niblack, of Vincennes, Ind., were the other speakers.

Mayor Noble and Dr. Cooley proved to be good entertainers and so did Mr. Reichardt, who introduced his Glee Club to sing the celebrated German song led by Mr. Ritter, of Evansville. There was a great deal of music of the kind exploited by Claude Clark, but the foreign language kept the crowd guessing what it was all about.

Shortly after 10 o'clock Judge Knight was called upon to dismiss the crowd with a few words. He pledged Christian county to build any kind of road wanted, in any part of the county.

Before adjourning Mr. Cooper called the 19 committeemen to the front and they stood on the pavilion steps and were passed upon by the big crowd. The verdict was that they were a fine body of boosters, comparing favorably with Hopkinsville's live wires.

Thursday morning the Clarksville people were here bright and early, headed by Mayor Marable and Chief of Police Robertson and the visitors were whisked back to Tennessee, going to Adams and back to Clarksville to dinner. A fine barbecue was served and in the afternoon the party returned here and were taken to Empire and turned over to the Hopkinsville committee, who took them to Dawson for the night. The return trip from Dunbar's Cave to Empire was made in Hopkinsville vehicles.

As far as could be learned the offi-

MEAT FOR GERMANY

Chicago Meat Packers Are Heavy Losers By This Capture.

NO ADVANCE PAYMENTS MADE

Court Held Evidence Showed Goods Bound For Germany.

London, Sept. 17.—The British prize court condemned the greater part of the American products forming the cargoes of four steamships. The products are valued at several million dollars and are declared forfeited to the crown.

The cargoes consisted principally of American meat products. The cases were pending several months. The court said the captured ships, were Norwegian vessels, and carried more than thirteen times the usual amount of goods, which under normal circumstances would have been taken to Copenhagen, the port for which it was destined.

This is overwhelming evidence, the court asserted, that the goods were intended for Germany. Leave for appeal was given.

BETHEL OPENING

Auspicious Beginning of Sixty-first Session Yesterday Morning.

The formal opening of Bethel College yesterday morning was most auspicious. A good crowd attended the opening and the chapel was filled with the students, members of the Alumnae and other visitors. The faculty and members of the Board of Trustees occupied seats on the platform.

Prayer was offered by Rev. J. N. Jessup, pastor of the Christian church, and short speeches were made by Rev. C. M. Thompson and Chas. M. Meacham, of the Board of Trustees, by Dr. Jessup and by President Peterson, Prof. Swann and Miss Lindsay, of the faculty.

Miss Moore, the teacher of Expression, gave a delightful reading, Miss Ayers, of the faculty, played on the violin and Miss Thomas sang a beautiful solo and responded to an encore. She comes highly recommended as a gifted musician, with a well-trained voice of unusual strength and sweetness. Miss Lindsay's brief remarks were in expressing the hope that the new dormitory would become a reality.

The enrollment of boarding pupils is now close to 50 with several others coming in next week. The largest enrollment any previous year was 44, in the boarding department.

FIRST PRESBYTERIAN CHURCH.

Elmer E. Gabbard, Minister, Sunday school 9:30 a. m. Morning service, 11:00 a. m. Christian Endeavor, 6:45 p. m. Evening service, 7:30 p. m. Wednesday Prayer service, 7:30 p. m. The subject for the morning service will be, "How Can We Please God?" At the evening service Miss Lucy Starling will speak. We extend a cordial invitation to everyone to join with us in these services and urge all members to be present.

DELEGATES CHOSEN.

The Col. John R. Green Chapter, D. A. R., met at the Carnegie Library, Monday afternoon. Among other important business matters attended to the following delegates were elected to attend the State conference, which meets at Frankfort in October: Mrs. H. C. Locker, Regent Delegate; Mrs. W. S. Davison, Alternate.

TIDE EBBS AND FLOWS

Germans Continue Advance in North, While Czar Pushes On In South.

RUSSIA CALLS LAST RESERVE.

British Admit Loss of Submarine E-7 In the Dardanelles.

London, Sept. 17.—Stern battles are being fought from Riga to the Rumanian border, and while the Germans continue to advance slowly in the north and center, the Russians in the south are repeating their successes against the Austro-German armies, now being driven back across the river Stripa in Galicia and retreating westward, north of the Galician frontier.

While these Russian victories are welcomed in Russia and the allied countries as an evidence that the Russian armies are still able to take the offensive when supplied with ammunition, there is no inclination to exaggerate their importance. The engagements, however, keep the Austro-Germans busy and make it imperative to send reinforcements southward, which could be used to better advantage in the north, where von Hindenburg is directing operations of much greater moment.

This general, who began his offensive against the Vilna-Dvinsk railway a week ago, has not yet established himself on the line. His cavalry, which did not reach it, has been driven back. Nevertheless he has driven the Russians across the Dvina river, north of Dvinsk, placing that city in a rather dangerous position. He also has advanced north of Vilna.

South of Vilna, toward Grodno, the Russians are offering stubborn resistance and have the Germans firmly held. That is the situation, too, in the center; Prince Leopold has been delayed in his advance. Von Mackensen has passed his forces through the Pripet marshes and now holds Pinsk. From this point southward the Russians are advancing and have reoccupied a number of villages, but they are not likely to push their advance much farther, as it would make their northern flank vulnerable.

Much importance is attached to the decision of Russia to call to the colors territorial reserves. Should the age limit be fixed at thirty-five years, this fresh call would mean the possible addition of eight million men to the Russian armies, including the men who passed through the first line and the reserves and those who heretofore have been exempted as students, as only sons, or men who are not quite up to the physical standard.

With Russia now supplied with munitions, her allies, who have been supplying her, can turn their attention to their own armies and, in consequence, there is no cessation in the artillery engagements which have raged in the west for several weeks past.

In the Dardanelles the British losses have totaled \$7,630 up to August 21. The British submarine E-7, operating in those waters, which the Turks claim to have sunk, is admitted by the British admiralty to have been missing since September 4. The E-7 did much damage to Turkish shipping in the sea of Marmora, and, after blocking the railway line near Kara Burnu, by bombarding it from the sea, shelled a troop train and blew up three ammunition cars attached to it. Lieutenant-Commander Archibald D. Cochrane, in command of the E-7, only a few days ago, was awarded the distinguished service order for this exploit.

LAWSON-BYARS.

Miss Lucy N. Byars and Mr. Guy R. Lawson, of Trenton, Ky., were married in the parlors of the Arlington hotel, at Clarksville, Thursday morning. The groom is a prosperous young farmer of the Trenton neighborhood.

Yeggmen cracked the safe in the
Sebree postoffice and got away with
\$350.

Five airship raids were made on
England within a week, with a total
of 166 casualties.

A Los Angeles barber was given a
\$50 tip by a man who had more
money than sense.

Premier Asquith says the war is
costing England \$17,500,000 a day
and that the enlistments have
reached 3,000,000 men.

Alice Bennett, a pretty office girl
for Dentist L. J. Chaise, in New
York, sued the Doctor for \$10,000
for kissing her against her will.
She got \$250.

Judge Henson has enjoined the
Council of Henderson from ap-
propriating \$25,000 to build a hos-
pital, on the ground that the expen-
diture would make the city's liabilities
exceed the sum allowed by law for
the year 1915.

Elmer J. Kilpatrick, county agent
of McCracken county, has resigned.
Mr. Kilpatrick has formed a par-
tnership with W. H. Veats, of Bal-
lard county, and will participate in
the management of extensive farm-
ing interests there.

W. W. Cole, the Circus man who
died in New York three months ago,
left an estate worth \$5,000,000, with
no heirs except his wife and distant
relatives in England and Scotland.
He left \$500,000 to 65 persons and
\$100,000 to churches and institutions.

Delegates to the convention of the
Master Horseshoers' National Pro-
tective Association, in session at
Cleveland, declared that the hard
pavement used on auto roads was
helping their business. They say a
horse's shoes now wear only one-
fourth as long as formerly. Next
thing the old fogies on dirt roads
will be opposing macadam roads be-
cause horse shoes cost money.

The first blow at neutrality and non-
partisanship in this country in the
world war has been struck. A coun-
try-wide campaign is to be started by
pro-German sympathizers to oppose
the movement to lend Great Britain
and France \$1,000,000,000 to be spent
for supplies here. One method which
is reported to be in favor with those
opposing the floatation of the loan
is the proposal to float a similar loan
for Germany. The amount of the
proposed German loan, is to be half
a billion dollars.

PUBLIC
ROADS

DIRECTIONS FOR USING DRAG

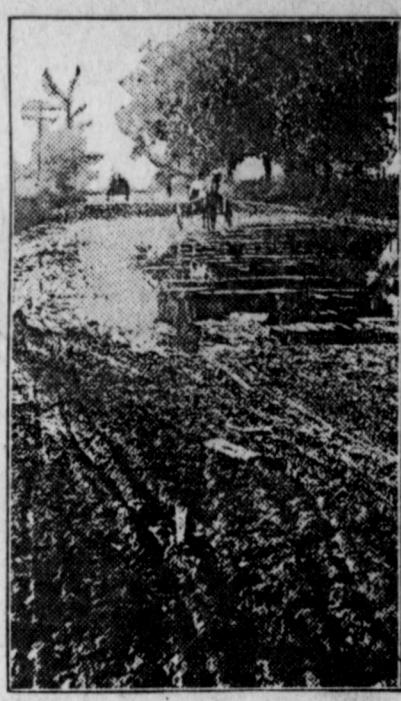

Have the Implement Follow Horses at
Angle of Forty-Five Degrees, Push-
ing Earth to Center.

(By D. WARD KING.)

A road-drag is any cheap wooden
contrivance that will move a little
earth to the middle of the road and
leave the surface smooth. Any drag
is a good drag, but the split-log or
double-drag is by far the best.

The directions for use are simple as
the drag itself: Ride on the drag,
drive the team with one horse on each
side of the right-hand wheel track,
with the drag following at an angle
of about 45 degrees, thus pushing the
loose earth toward the center. Drive
toward town to your neighbor's front
gate, and turning there, come home
over the other wheel track.

After the next rain perform the
same operation. When this has been
done four or five times the road may

Stretch of Missouri Road Previous to
Reclamation.

be widened by plowing a shallow fur-
row just outside the dragged portion
and (with the drag) spreading the
loose earth toward the middle.

Special points along the way re-
quire special treatment. This opera-
tion will make better road out of
any earth highway. The drag may
be used when the road is quite wet—
particularly at the beginning. The
dragging always should be done be-
fore the surface is entirely dry.

TRY UNIFORM COLOR SCHEME

Bay State to Adopt Plan Which Has
Been Successful in New England—
Easy to Tell Roads.

A uniform color scheme, by which
motor tourists in the New England
states will be able to tell by the color
of the road signs whether they are on
local or state roads, north and south
or east and west main roads, or sec-
ondary or diagonal roads, is planned
by William D. Sohier, chairman of the
Massachusetts highway commission.

At present New Hampshire has a color
system of its own and Vermont has a
complicated one, and the plan in each
state has proved of assistance to those
familiar with it.

Could a uniform system be extended
over the New England territory. So-
hier thinks, strangers would find the
problem of selecting their roads much
simplified. Connecticut, Rhode Island
and Maine highway officials have
promised to co-operate with the Mas-
sachusetts commission in drawing up
a simple system, and a conference of
highway commissioners at which the
subject will be considered is to be
held in the near future.

OHIO BOARDS HELP HIGHWAY

Two Counties Unite to Give Lincoln
Highway Their Special Care—
Additional State Road.

The Lincoln highway in Crawford
and Wyandot counties, Ohio, has re-
ceived special consideration from
State Highway Commissioner James
R. Marker.

By a combined effort of the commis-
sioners of both counties and the Lin-
coln highway boosters of Bucyrus, Ne-
vada and Upper Sandusky, the Lincoln
highway has been made an additional
state road from Bucyrus to Upper San-
dusky.

This section is now designated as
Market Route No. 3.

Reduce All Grades.

Reduce all grades to at least five
per cent if possible. In some states
roads are laid out on section lines
and hills must be gone over, but where
possible avoid steep grades, as these
are a constant cost for maintenance
and dangerous to travel.

Yard for Little Pigs.

Don't neglect having a yard or pen
into which the little pigs can go, and
get extra feed as soon as they are old
enough to eat, which is when they
are three or four weeks old.

A Strange Story.

Argyle, Mich.—Mrs. Wm. H. Carson,
in a letter from Argyle, says: "I
was almost wild with pains in my
head, and other severe pains, due to
womanly troubles. Cardui gave me
great relief at once. Further use of
Cardui raised me from my bed of
agony. Cardui saved my life, and I
can't be thankful enough for what it
did for me." Whether seriously sick
or simply ailing, take Cardui, the
woman's tonic. As a general tonic
for women, to improve the appetite
and build up the constitution, Cardui
is in a class by itself. Those who
have used it say it does the work; it
relieves, it cures. Try it. Your drug-
gist has it. —Advertisement.

ANNOUNCEMENTS.

We are authorized to announce
R. H. + OLLAND
as a candidate for City Commissioner
of Hopkinsville, subject to the ac-
tion of the voters of Hopkinsville at
the primary election to be held on
Saturday, October 16th, 1915.

We are authorized to announce

F. H. BASSETT

as a candidate for City Commissioner
of Hopkinsville, subject to the ac-
tion of the voters of Hopkinsville at
the primary election to be held on
Saturday, October 16th, 1915, as pro-
vided by Section 3480 B, Subsection 6
of the Kentucky Statutes.

We are authorized to announce

J. SOL FRITZ

a candidate for Commissioner for
the city of Hopkinsville, subject to
the action of the voters of said city
in the Primary election to be held Sat-
urday, Oct. 16th, 1915, as provided
by section 3480 b, sub. sec. 6, Ky.
statutes.

We are authorized to announce

M. F. CRENSHAW

a candidate for Commissioner for the
City of Hopkinsville, subject to the
action of the voters of said city in the
Primary election to be held Sat-
urday, Oct. 16th, 1915, as provided
by section 3480 b, sub. sec. 6, Ky.
statutes.

We are authorized to announce

GARNER E. DALTON,

as a candidate for City Commissioner
of Hopkinsville, subject to the ac-
tion of the voters of said city at the
primary to be held on Saturday, October
16th, 1915.

We are authorized to announce

R. M. WOOLDRIDGE

a candidate for Commissioner for the
City of Hopkinsville, subject to the
action of the voters of said city in the
primary election to be held Sat-
urday, Oct. 16th, 1915, as provided
by section 3480 b, sub. sec. 6, Ky.
Statutes.

We are authorized to announce

W. R. WICKS

as a candidate for City Commissioner
of Hopkinsville, subject to the ac-
tion of the voters of Hopkinsville at
the primary election to be held on
Saturday, October 16, 1915, as provided
by section 3480 b, sub. sec. 6 of the
Kentucky Statutes.

Foodstuffs and Their Worth.

Beefsteak and some vegetables are
rich in iron. In meat the iron exists
largely as hemoglobin, due to the
blood contained in the muscular tis-
sue. Iron in combination with pro-
tein matter is found in considerable
quantity in grains. String beans, navy
beans, lima beans, spinach especially,
cabbage and dried peas are rich in
iron. Among the fruits that have
plenty of iron are dried prunes, apples
and raisins.

Unusual Offer To Our Readers.

For a limited time, and subject to
withdrawal after 30 days, the well-
known publishing house of the J. B.
Lippincott Company, Philadelphia,
founded in 1792, offers to the readers
of this paper a 12 months' subscrip-
tion to "Lippincott's Magazine" and
a year's subscription to the Kentuckian,
both for \$3.00. This is the price
of a twelve months' subscription to
"Lippincott's" alone. Additional to
obtaining every issue of this paper
for a year, our readers will receive
in "Lippincott's," 12 great complete
novels by popular authors, 108 short
stories, crisp, entertaining, original
and timely articles from the pens of
masters, and each month some ex-
cellent poems with the right senti-
ment, and "Walnuts and Wine," the
most popular humor section in
America. To obtain this extraordi-
nary offer prompt action is necessary.

Remit to J. B. Lippincott Company,
Washington Square, Phila., Pa.

DAIRY
FACTS

NO PLACE FOR COUNTERFEITS

Difficulty of Replenishing and Starting
Herd With Good Animals Wor-
ries Dairy Farmer.

The development of the increasing
demand for well-bred dairy cattle is
based upon the recognition of the fact
that under present production condi-
tions, the counterfeit dairy cow has no
place on the pasture or in the feed-
yard.

During the past few years, difficulty
in replenishing and starting herds
with good animals has confronted the

Select Animals on Wisconsin Dairy
Farm.

dairy farmer at every turn. High feed
bills have demonstrated the futility
of expecting satisfactory returns when
keeping poor producers, and the wide-
awake, progressive, business dairymen
are centering their demands on merit,
of which there must be a greater sup-
ply to meet this demand. Foreign
competition has created a well ground-
ed impression that the most effective
way of evading it is by greater produc-
tion per animal and better prod-
ucts.

BUILDING UP A DAIRY HERD

Not Necessary to Go to Great Expense,
but Few Years of Time Are Re-
quired for Purpose.

Are you satisfied with your present
herd of nonpaying common cows? If
not why not begin now to improve
them and get out of the old rut? When
developing the dairy herd from
common stock it is not necessary to
go to great expense, but a few years
of time are necessary in which to ac-
complish this.

The amount of time called for will
be to some extent, be dependent upon the
character of the stock that you now
have, or the one you intend to use for
a foundation herd.

In some instances two or three genera-
tions of correct breeding will build
up a common herd to a fine paying
herd. In other instances a longer
time will be required but it should
not require more than four or five
generations to effect the changes
sought.

NEED OF WATER FOR A CALF

Necessity Not Generally Understood
and Young Animal is Quite Fre-
quently Painfully Thirsty.

The young calf does not receive all
the moisture it needs from the skim
milk which it gets as a regular ration.
At a very early age it will drink a lit-
tle water if it has an opportunity and it
will do this a number of times dur-
ing the day.

It is a good plan to have water be-
fore it at all times. This need of the
calf for water is not generally un-
derstood and the young animal is
usually painfully thirsty as well as
hungry at feeding time. The result
is that it gorges itself with the milk
or drinks too rapidly when it has a
chance. Thus it does not get the full
benefit of the milk and digestive trou-
bles will result. Remember that milk
is the calf's food. Water should be
its drink.

Care of Calf After Weaning.

Make sure that the calf does not
get to the cow again, once it is sepa-
rated from her and put on the skim-
milk diet, as it will tend to spoil, not
only the calf, but will cause the cow
to worry after the calf and reduce her
milk flow.

Leave Calf With Cow.

It is a good practice to let the calf
suck the cow for about forty-eight
hours after birth, after which it should
be taken from its mother. In the case
of a weak calf, however, it is better to
let it remain two or three days longer.

Cleanliness is Necessary.

In raising calves, remember this:
Cleanliness in all of the feeding op-
erations is extremely necessary.

Use Artificial Coloring.

If it is desired to use artificial color-
ing, it should be added to the cream
just before churning.

Sometimes a girl makes a fool of herself over a man, and sometimes she marries the man and makes a fool of him.—Indianapolis News.

CARING FOR LATE POTATOES

Tubers Are Too Often Neglected After First Few Weeks of Growth—Use Light Cultivator.

On many farms the potatoes are well cared for during the first few weeks of their growth, but late in the season they are left to take care of themselves.

It is true that deep cultivation, after the plants are fairly well grown, will be harmful, but the occasional use of a light cultivator, with teeth not more than an inch and a quarter wide, may well be continued until the tubers are nearly ripe, or the vines have become so large as to prevent further work between the rows.

The destruction of injurious insects is another matter which usually receives fairly prompt and thorough attention during the first half of the growing season, but which, on many farms, does not receive sufficient attention later on. The fight against the enemies should be continued to the end of the growing season. This will allow the tubers to reach their full size and to become thoroughly ripe. It will also do much to prevent the appearance of large numbers of "bugs" next year.

Drive Out Granary Pests.

When the new grain goes into the granary, drive out the weevils and other pests. A few open dishes of bisulphide of carbon set around will do it. Then close the granary tightly and make yourself scarce while the stuff is evaporating, for the vapor goes downward and you may get a whiff of it, to your great harm. Keep lights and fire away.

Photographing a Mirage.

It is possible to photograph a mirage and obtain very good results. As we are told by a photographic expert, "the simplest way is to stop down the lens to, say, U. S. 64 (f. 32), and make a series of exposures ranging from one-one-hundredth to one-twenty-fifth of a second, depending upon the intensity of the light. The ray filter will give better color values, and can be used to better advantage, but this will mean lengthening the time of exposure accordingly."

Art Versus Commerce.

Poet's Wife—Ah, Gerald, if the publishers would only pay you as well for your poems as the tobacco men do for your testimonials, we would be on Easy street!—Puck.

SHIPPING BEES WITH SAFETY

Bottle May Be Used for Purpose by Arranging Frame Inside—Prevents Insects Smothering.

A bottle used for shipping bees can be made more suitable for the purpose by putting a light frame inside, as shown in the illustration, says Wisconsin Agriculturist.

The bees, when lightly smoked, can easily be shaken into the bottle

Jar With Frame Inside for Shipping Bees.

trim up these waste and idle places before the volunteer growths get too far advanced.

It is a good plan to bring the sheep from their pasture once or twice each week through the summer and fall and give them opportunity to trim up the weeds. It is very valuable for the health and thrift of the sheep.

"A change of pasture is good for sheep," and there is nothing better for the suppression of the extra growth of pasture and weeds than sheep.

The arms are fastened to the middle piece and turned straight until placed in the bottle or jar. Then the cross pieces can be turned into position.

Many physicians use the bee poison for certain purposes, and get bees to be used in this way. This hint will be of value to those who ship bees to them or to other apiculturists.

French Ingenuity.

A hollow wooden ball, six feet in diameter, which is moved by the flow of the sewage, is used to remove obstructions from sewers in Paris.

Rye Grass.

Rye grass is believed to be the oldest grass specially raised for forage, having been thus cultivated in England more than two centuries ago.

Lightning Rod Indorsed.

The United States government has vindicated the lightning rod by rigid tests.

SHEEP TRIM UP THE WEEDS

Also Clean Up Briers, Volunteer Grains and Grass Growth in Fence Rows and About Stock Lot.

The greatest advantage in keeping a few sheep on the farm—twenty-five to fifty head—is the cleaning up of weeds, briers, volunteer grain and grass growth in the fence rows and about stock lots, feed lots, barn yards and idle places generally, where such growth gets a start in the latter part of summer and early fall season. Weeds in such places should never be permitted to go to seed, and need not if the sheep are given a chance to

FALL TERM OF COURT

Circuit Court Begins Monday, September 27, and Will Last Six Weeks.

Yesterday was the last day for filing suits for the approaching term of the Christian Circuit Court. Up to noon 110 appearances had been filed and this number was likely increased before the closing hour. In addition, there are a number of equity, common law and commonwealth matters, which will swell the number of cases on the docket to more than four hundred.

The fall term of Court will begin on Monday, September 27, and will be in session six weeks. Sheriff Smith and his deputies are busily engaged summoning the juries.

Let us have those fall and winter clothes and dry clean and press them up before the cool weather. They won't be new but your friends will think they are.

THE METCALFE LAUNDRY CO., Quality Dry Cleaning. Phone 735.

STOCK BARN CONSUMED

No stock in Building, But Much Provender, Was Destroyed.

A large stock barn belonging to Mr. Charles L. Pierce, who resides on the Canton pike, about seven miles southwest of the city, was destroyed by fire about 4 o'clock yesterday morning. The flames were discovered by the cook, who gave an alarm, but the fire had made such headway that nothing could be done towards saving the building. There was no stock in the barn, but the building contained a quantity of hay and oats, all of which was consumed. The origin of the fire is a mystery. Mr. Pierce was in Louisville at the time of the fire. His loss is several hundred dollars, with no insurance.

When you want fire, tornado, life or bond insurance in the... Oldest and Strongest Companies, see H. D. WALLACE, office up stairs, over Anderson's—Fowler Drug store, corner Ninth and Main.

225 Acre Farm For Sale

Meacham Farm Near Gracey To Be Sold For Division.

The A. W. Meacham farm, one mile northeast of Gracey, will be offered for sale for division at Public Auction at the Court House door in Hopkinsville, Monday, Oct. 4, at 11 a. m. It consists of two tracts of land, lying on both sides of the old Bellevue road. One tract of 112 and on the South side of said road and the other of 68 acres is just across the road, on the North side. A cottage of seven rooms is on the large tract, with large barn, stable and other out-buildings. An additional tract of 45 acres adjoining the farm on the west is for sale if purchaser should want more than 180 acres.

A never failing stream of water, known as Meacham's branch, crosses the farm. A portion of the large tract is in timber. The farm is rented for 1915, but partial possession for seeding crops could be given in the fall. For further information apply to

SURPRISED THEIR FRIENDS

Miss Vera Randle Becomes The Bride of Mr. Lawrence McKee.

Miss Vera Randle and Mr. Lawrence McKee were quietly married Thursday evening at 8:30 o'clock in the Christian Church study by Rev. J. N. Jessup, with only a limited number of friends and relatives present.

The happy event came as a complete surprise to most of their friends, although it was the culmination of a long and happy courtship.

The bride is a pretty and attractive daughter of Mr. and Mrs. Geo. E. Randle and her wide acquaintance and attractive personality have made her a favorite here.

The groom is the son of Mr. Percy McKee, of Memphis, who formerly lived here. He is a successful young business man and is now holding a very responsible position with the Kentucky Public Service Co.

They were the recipients of a number of handsome and useful gifts, which attest their popularity.

For the present they will take apartments with Mr. W. R. Bowles, on Walnut street.

ANDERSON-BOYD.

Popular Young Couple are Wedded In Clarksville.

Wallace Anderson and Miss Mabel Boyd, a popular young couple, eloped to Clarksville Wednesday morning and were married. They were accompanied by Fenton Holloman and Miss Ethel Cannon. They went in an automobile and returned by Pembroke, where they met the Third Regiment Band enroute to Trenton to meet the Dixie Bee-Line Committee. The groom is a member of the band and he returned with the band to Trenton, his bride coming on with her friends. Mr. Anderson remained with the band until its engagement was completed the same evening. The groom is a son of J. R. Anderson, who has charge of the workhouse prisoners and assists his father in that work.

The bride has been a saleslady in Anderson & Co.'s store and is a most attractive and vivacious little bride, as pretty as she is bright and winsome. She is a sister of Richard Boyd, the contractor.

They will for the present reside with the groom's parents on the west side.

PURELY PERSONAL

Miss Mildred Jessup has gone to Indianapolis to enter Butler College as a sophomore.

James Harris is in Louisville, attending the State Fair.

Albert C. Cox attended the State Fair in Louisville this week.

Messrs. W. J. Nesbet and Robert Forsythe, coal operators of Providence, Ky., were here Wednesday and Thursday with the Dixie Bee Line Inspection Committee.

W. J. Smith, merchant of Sebree, was here Wednesday night boasting for the Dixie Bee Line.

Mrs. C. W. Garrett, of Bell's, is visiting at Estill Springs.

Mr. John Blane, an old and prominent citizen, formerly of the Longview, is critically ill at his present home near Casky.

John J. Metcalfe is attending the State Fair for his eighth consecutive year.

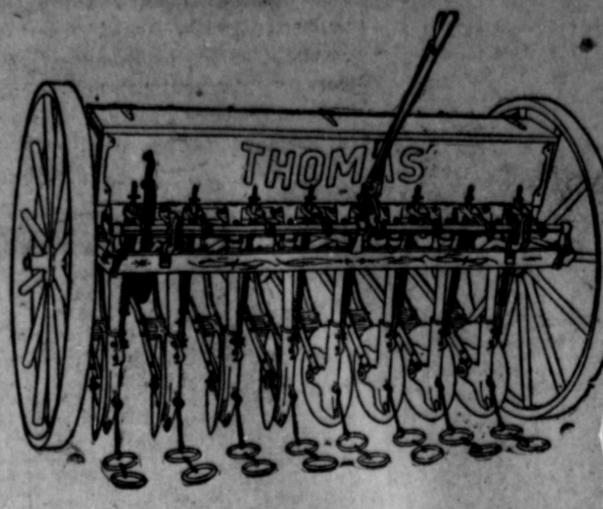

Miss Nora Noe, accompanied by Master "J. T." Bullard, will leave this morning for Chattanooga, where Miss Noe will visit Mrs. W. B. Neely. Master "J. T." will go from Chattanooga to Dalton, Ga., his former home with his uncle, Mr. Harry Brown.

Dr. and Mrs. Andrew Sargent have returned from a visit of a week or more to friends in Chicago.

Mrs. John C. Gary is visiting Mrs. W. E. Hamner, at Morganfield, Ky. C. B. Crutchfield is attending the State fair.

With winter coming on the Russians will soon be at home in the trenches.

FOR WHEAT SOWING THOMAS WHEAT DRILLS

This is the Drill that will increase your yield from 2 to 5 bushels per acre. This drill scatters the grain in the 1 3-4 in. furrow and does not pile it in one wedged shaped furrow. Every Thomas Drill has the Thomas Automatic Oiler in Disc journal bearing, therefore the bearings need oil only once a season. Many other exclusive points. Come in and let us show the Thomas or see the one your neighbor has. Then put your order in for the size you want and we will have it.

SEED WHEAT

We have a limited quantity of extra select Seed Wheat. This Wheat made 41 bushels per acre this year and was grown in KENTUCKY.

FERTILIZERS

If you are going to use Fertilizer containing Potash, it would be wise to place your order for immediate shipment as Potash is very scarce and will be hard to secure later on. We have MORRIS & CO'S Big Brand Fertilizers. Also 16 per cent. Acid Phos.

F. A. Yost Company
INCORPORATED.

AFTER 1916 MEETING

Delegates to State Medical Association Want Next Meeting Here.

Dr. and Mrs. W. S. Sandbach and Dr. J. Paul Keith left for Louisville Thursday night to spend the weekend at the fair and Dr. and Mrs. Sandbach will then visit their parents at Elizabeth, Ind., returning to Louisville to the meeting of the State Medical Association next Tuesday. Drs. Sandbach and Keith represent the Christian County Medical Society and will be joined by other doctors from this county. They go instructed to invite the Association to hold its 1916 meeting in Hopkinsville. It is a body of from 300 to 500 members. It has not met in this city for a generation and a strong effort will be made to secure the meeting for next year.

Louisville Girl's Suicides.

Miss Elizabeth Fenley, daughter of Oscar Fenley, president of the National Bank of Kentucky, Louisville, committed suicide in New York by leaping from the roof of an eight story building. Shortly before six o'clock Miss Fenley, who was 31 years old, entered the building and made her way through the door at its top to the roof. Here she stood only long enough to lay on the stairway her hat and a copy of Alice Brown's prize play, "Children of Earth." Then she walked to the edge and threw herself off. She died on the way to a hospital.

Miss Fenley, who was of exceptionally attractive appearance, had suffered nervousness following an active season in society last winter. Treatment in Louisville not improving her condition, her physician sent her to New York two months ago.

A trained nurse had been her constant occupation.

Methodist Church.

Rev. Lewis Powell, D. D. Pastor. Sunday School 9:30 and J. H. Cate, Superintendent.

Dr. Powell will preach at 10:45 a. m. on "Building—Two Kind."

At 7:30 p. m. on "The Resurrection of the Body."

The Epworth League at 6:30 p. m. Everybody invited and especially the strangers and visitors welcomed.

Hopkins County Patient.

Sarah Umpstead, of Hopkins county, died at the Western State Hospital Wednesday night of tuberculosis, pellagra being contributory. She was 50 years old. The remains were shipped to St. Charles.

Jolly For "Hoot."

Over at Hopkinsville we note our good friend, Garner E. Dalton, is a candidate for city Commissioner. Mr. Dalton is a thorough business man and every way equipped to make Hopkinsville a commissioner in whom every citizen can well be proud. Large in stature, broad in mind and courteous in manners, Garner Dalton is a man among men, and should be elected.—Princeton Leader.

Grocery Store Sold.

The Pate-Davis Grocery Co. on Thursday sold out to R. C. Hopson, who took charge at once. Mr. Hopson at present lives on his farm near town, but will move to town at once and give his entire time to the business.

Oliver Marcus, of Stanberry, Mo., aged 72, came back to Adair county the other day and, after visiting her, married Mrs. Mary H. Murray, aged 71, who was his sweetheart 50 years ago. They had not met since 1865.

SUIT AGAINST L. & N. R. R.

W. S. Sims Prays For \$8,000, Alleging Personal Injuries.

W. S. Sims has filed suit against the L. & N. railroad company for \$8,000. He alleges that as he was driving across one of the defendant's crossings in the city Sept. 3, a train backed in upon him, demolishing his wagon, injuring his horse, and that he was thrown violently to the ground, sustaining permanent injuries himself. He further states that the train was running at a reckless rate of speed and gave no warning of its approach.

5 Women Avoid Operations

For years we have been stating in the newspapers of the country that a great many women have escaped serious operations by taking Lydia E. Pinkham's Vegetable Compound, and it is true.

We are permitted to publish in this announcement extracts from the letters of five women. All have been recently received unsolicited. Could any evidence be more convincing?

1. HODGDON, ME.—"I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached and I was so nervous I could not sleep, and I thought I never would be any better until I submitted to an operation, but I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman."—MRS. HAYWARD SOWERS, Hodgdon, Me.

2. SHELBYVILLE, KY.—"I suffered from a severe female trouble. My right side hurt me badly—it was finally decided that I must be operated upon. When my husband learned this he got a bottle of Lydia E. Pinkham's Vegetable Compound for me, and after taking it a few days I got better and continued to improve until I am now well."—MRS. MOLLIE SMITH, R.F.D., Shelbyville, Ky.

3. HANOVER, PA.—"The doctor advised a severe operation, but my husband got me Lydia E. Pinkham's Vegetable Compound and I experienced great relief in a short time. Now I feel like a new person and can do a hard day's work and not mind it."—MRS. ADA WILT, 303 Walnut St., Hanover, Pa.

4. DECATUR, ILL.—"I was sick in bed and three of the best physicians said I would have to be taken to the hospital for an operation as I had something growing in my left side. I refused to submit to the operation and took Lydia E. Pinkham's Vegetable Compound—and it worked a miracle in my case, and I tell other women what it has done for me."—MRS. LAURA A. GRISWOLD, 2437 East William Street, Decatur, Ill.

5. CLEVELAND, OHIO.—"I was very irregular and for several years my side pained me so that I expected to have to undergo an operation. Doctors said they knew of nothing that would help me. I took Lydia E. Pinkham's Vegetable Compound and I became regular and free from pain. I am thankful for such a good medicine and will always give it the highest praise."—MRS. C. H. GRIFFITH, 1568 Constant St., Cleveland, O.

Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

on every hand, were forthcoming as they have been before. Clarksville was highly decorated and a barbecue dinner was served there by the Clarksville Business association for the commission members and 2,000 other boosters. The regular speakers spoke.

L. & N. ROUTE FAVORED.

In north Christian county and south Hopkins county from Hopkinsville to Dawson Springs, poor roads were found, there was little macadam, many hills and an exceedingly large number of bad turns, which make the road impractical, and puts Dawson Springs in a hopeless fight in opposition to Nortonville and the route that follows the L. & N. track south from Madisonville to Hopkinsville.

More than three thousand people greeted the commission here.

A banquet was given in a hotel by the Dawson Springs Commercial club, and speeches were made by President Bosse, Col. Bill Howell, Henry Cowan, Rev. Ward Russell, Judge Rogers, Claud Clark and S. W. Swinehorst. Will P. Scott was master of ceremonies, and was assisted by George McAuley, president of the club.

The trip will close to-night. Henderson ignored the commission Monday when it passed through the e, but its representatives got into communication with Mayor Bosse to say a big entertainment has been planned there to-night.

TRENTON'S MOTTOES

Flags And Banners That Spoke Volumes.

Considering the size of the place, no town gave the Bee Liners a more cordial reception than Trenton.

Several brand new stunts were pulled off. One was to have twelve horsemen on the finest horses to be had, as an escort to the autos. Mayor Bosse got out of his vehicle and rode one of the horses into town. Forty pretty girls dressed in white, with decorations in the national colors and each holding a tri-colored parasol, formed a lane through which the visitors marched to the stand.

There were speeches, songs and floats. Some of the floats are given: "Follow the Dixie Flyer."

"Feeders to the Dixie Bee Line Will Extend to Clarksville and Russellville."

"Forty miles to Hopkinsville via Clarksville, 16 miles via Pembroke."

"Lookout for the Dixie Flyer on the Bee Line Railroad."

"Bee Line Over Which the U. S. Government Moved the Creek, Chickasaw, Choctaw and Seminole Indians in 1838-1840." An Indian camp was shown on the old camp ground.

"Safety first. Fewer grades, fewer curves, fewer bridges, fewer miles by the Trenton route."

Sept. 22 and 23

New Hats, New Coat Suits, New Waists, New Dresses, New Shoes, New Dress Goods and Silks, and a New Record for combining fashion's most favored ideas, with economy in prices.

Those who wish to look are just as welcome as those who want to buy.

After 51 Years.

An identification disc worn by Eli Johnston Ague, a Pennsylvania soldier killed in one of the battles before Petersburg, Va., in the Civil war, has been sent to the widow of the soldier, Mrs. Matilde Ague, of Oil City, by Adj. Gen. Thomas J. Stewart, after she had been searching for months.

The disc was dug up on the battlefield of Cedar Mountain, Va., by J. R. Leman, who took it to Raleigh T. Green, editor of the "Cupper Exponent." It bore a device frequently seen on such articles in the Civil war, and the name of Ague, stating that he was a member of Company B, Tenth Pennsylvania reserves.

Gen. Stewart was asked to locate the widow.

Still a Mystery.

Honolulu, Sept. 17.—Rear Admiral Clifford Joseph Boush, commandant of the Honolulu naval station, announces that although available data obtained by the examination of the hulk of the submarine F-4 is in his possession, he is unable to tell the cause of the disaster, which sent the undersea craft to the bottom there March 25, costing twenty-two lives.

The board of inquiry appointed to conduct the examination has begun its final survey of the battered shell.

Would Benefit Gilbert.

Kentucky educators, at a conference, drafted a bill, to be introduced during the coming session of the Legislature, looking to a constitutional amendment whereby the State Superintendent of Public Instruction may succeed himself in office.

Bernstorff's Opinion.

Count von Berstorff, the German Ambassador, said Wednesday he was confident all difficulties between the United States and Germany would be settled within a fortnight, and that the nations would be "friendlier than ever." Ambassador Gerard was instructed to present at Berlin the evidence that the Arabic was torpedoed without warning.

Nashville Manufacturer.

Henry W. Butteroff, president of the Phillips & Butteroff Co., of Nashville, died Thursday, aged 78 years. The Phillips & Butteroff Company was organized in 1881, when he was placed at the head of it and continued in that position until his death. He was a member of the Baptist church and for many years was superintendent of its Sunday School.

 Weekly Prayer Meeting—Wednesday—7:30 p.m.

Grace Church—Rev. Geo. C. Abbott, Rector.

Morning prayer and sermon at 10:45.

Sunday School at 9:30 a.m.
 Feeding Plants.
 Do you ever think of inviting your plants to dinner? An expert in plant life who took a large number of sun-dew plants and supplied half of them with nitrogenous food in the form of roast beef arrived at the following facts: Of the plants that he fed, 69 per cent more survived than of the same number that were not fed in this way; their stems weighed 41 per cent more, they excelled the starved plants in the number of their seeds by 141 per cent, and in the aggregate weight of their seeds by 279 per cent. Other scientists who have fed these plants with aphides of similar small insects have secured like results.

DAILY THOUGHT.

I should never have made my success in life if I had not bestowed upon the least thing I have ever undertaken the same attention and care that I have bestowed upon the greatest.—Dickens.

SPECIAL TO WOMEN

The most economical, cleansing and germicidal of all antiseptics is

Paxtine

A soluble Antiseptic Powder to be dissolved in water as needed.

As a medicinal antiseptic for douches in treating catarrh, inflammation or ulceration of nose, throat, and that caused by feminine ills it has no equal. For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have been cured say it is "worth its weight in gold." At druggists. 50c. large box, or by mail. The Paxton Toilet Co., Boston, Mass.

GERM OF SMALLPOX

Doctor Greeley Claims to Have Isolated Microbe.

Believes They Multiply in Mucous Membrane of Nose at Beginning of Disease and Thence Penetrate Blood Vessels.

Dr. Horace Greeley of Brooklyn reports to the Medical Record that he has discovered the long-sought microbe of smallpox. He found "an apparently identical organism" from the vesicles of twenty-five cases of successful vaccination, from a like number of cases of undoubted chickenpox, and from five cases of recognized and undoubted smallpox."

From Doctor Greeley's technical description of this new microbe it may be gathered that it is spherical and from 0.3 to 0.6 microns (of 0.000117 to 0.000234 inch) in diameter. It is in the form of multiplying spores, which just before division assume the shape of a figure 8, with a nucleus in each half. These develop into branching masses with spores at the end of the branches.

Doctor Greeley has grown them in cultures. He believes they multiply on the mucous membranes of the nose at the beginning of the disease, and the spores when shed penetrate the blood vessels and are wafted to all parts of the body, "landing in the skin capillaries, where conditions of lower temperature and more light, perhaps, favor further proliferation. In this connection we should remember how the eruption favors the face and hands."

Doctor Greeley concludes that vacinia and variola are identical, the difference being that "vaccination produces a local and at most a lymphatic infection, usually stopped at the nearest chain of glands, and represents the inoculation of an organism directly derived from a different species of animal, and therefore probably of low relative virulence, while smallpox is undoubtedly contracted through the respiratory tract and is due to one derived directly from an animal of like species which, as shown, through spore formation, passes into the blood and is thrown to all corners."

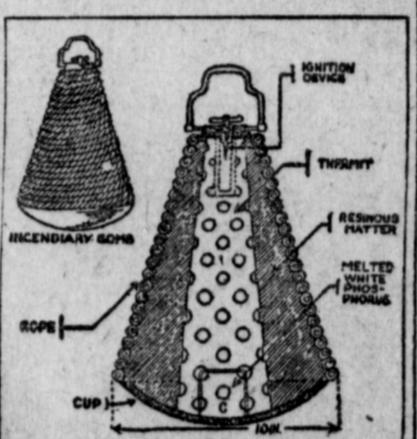

ARE LOADED WITH THERMIT

Incendiary Bombs Differ From the Ordinary Missile in Character of Their Destructive Power.

Incendiary bombs differ from ordinary explosive bombs in that they are intended not to scatter fragments over a wide area, but to produce sudden and intense heat at a given point, thus starting a fierce conflagration.

W. A. Tilden describes in *Nature* one of these bombs, a picture of which is reproduced here. His description is as follows:

The bomb, as a rule, is conical, of ten-inch diameter at the base, corded round, and has a metal handle at the

Section of Bomb.

apex (see cut). The base is a flat cup onto which a pierced metal funnel is fitted, having the ignition device and handle fitted at the top. The funnel is generally filled with thermit, which upon ignition generates intense heat, and by the time of the concussion has taken the form of molten metal of the extraordinary high temperature of over five thousand degrees Fahrenheit. The molten metal is spread by the concussion. Outside the funnel is a padding of a highly inflammable or resinous material bound on with an inflammable form of rope. The resinous material creates a pungent smoke.

There is generally some melted white phosphorous in the bottom of the cap, which develops noxious fumes. In some cases celluloid chippings are added and occasionally a small quantity of petrol.

PECULIAR EFFECT OF WAR.

Capt. Eugene Bourassa, a military officer in Montreal, who in private life controls a clothing store, states that the war has caused among his patrons an average expansion of chest measure from 36 to 40 inches. This is true not only of those in active service, but of all the citizens. He explains it on the ground that all the men are mentally and physically preparing for service now or in the future.

Unsentimental.
 "Do you understand the language of flowers?" said the sentimental youth.
 "No," replied Miss Cayenne. "I don't know that I should care to have my conversation regaled by the stud of vegetation that happened to be in season."

**BRYAN MAY GO TO
EUROPE TO END WAR**

**Nebraskan Willing to Cross
Ocean to Bring Peace.**

Philadelphia, Sept. 15.—William Jennings Bryan has signified his willingness to go to Europe and attempt to bring about peace.

Whether or not he will go will be decided on at a conference between the publishers of foreign language newspapers and himself in Washington on September 17.

The announcement of Mr. Bryan's decision was contained in a letter received by the editor of an Italian newspaper here from Dr. William Forge, of Brooklyn, who publishes the Forge guides, and heads the movement to have Mr. Bryan try to stop the war.

The announcement was accompanied by an invitation to attend the conference. Col. Bryan will defray his own expenses.

"After the talk I had with Mr. Bryan," writes Dr. Forge, "I am under the impression that, provided it develops at this meeting with the editors that his going abroad is advisable, he himself will, for the love of the cause, not only sacrifice his time, but will also pay his own expenses."

\$14,000 Found Him.

C. S. Brunger, chief clerk in the office of the trainmaster of the L. & N. Railroad Company at Louisville, has just learned that he is joint heir with four others to property located in Chicago valued at \$72,000, left by the will of his uncle.

The Brunger family originated in Sullivan, Ind., but more than twenty years ago S. C. Brunger was taken by his father, Thomas Brunger, to Knoxville, where they located. His father died some time ago, and his mother still lives in Knoxville. Mr. Brunger came to Louisville in 1910 to take his present position. He learned recently of his uncle's death in Wisconsin, and made a trip to Sullivan, Ind., where he visited his uncle, Stephen Brunger, and his cousin, Mrs. Frank French. Until his appearance in Sullivan, his relatives there, had thought he was dead. The settlement of the estate depended on locating Mr. Brunger and it will now proceed.

Optimistic Thought.

Davis Highway.

Communications from road boosters in Mississippi, received by the Paducah committees on the building of the Jefferson Davis Highway, urge that the road from Hopkinsville be constructed to pass by Beauvoir, the Mississippi home of the Confederate States. The committee has taken the matter under advisement and, as Paducah is at present a center of activities on the highway, it is considered certain that recommendations put forward by them to that end will be adopted.

DESERT IS EXPENSIVE

**Wabash River Mussel Digger
Swallows Pearl Valued
at \$25.**

Owensville, Ind., Sept. 16.—Arthur Edwards, a mussel digger on the Wabash river, and his sweetheart, Miss Elvira Carithers, engaged in a friendly scuffle over a little pearl which Edwards placed in his mouth after daring the girl to get it. During the scuffle Edwards swallowed the gem. "Now I've played thunder," said Edwards. He values the pearl at \$25.

The war lance of the middle ages was about sixteen feet long. The present-day lance rarely exceeds eleven feet.

Adjust Tobacco Rates.

Paducah, Ky., Sept. 17.—As a result of a conference held here between the Illinois Central railroad officials, a satisfactory adjustment of freight rates on tobacco between Paducah and Hopkinsville was reached. J. L. Durrett, of Louisville, assistant general freight agent of the I. C., attended the conference.

Corpse Came Back.

A Philadelphia man walked in while the family was holding his funeral. The corpse identified as his was an exact double so far as it could be passed upon after being mangled by a train.

A number of prominent Atlanta women have formed an organization, the object of which is for each member to live a hundred years.

ONE HUNDRED BOYS

**Object To Paying \$15 For
Their Free Appointments.**

A surprise was thrown into the registration proceedings at State University when about 100 students who were county appointees asserted their claim to exemption from paying the incidental fee of \$15 charged to all matriculates.

It developed that the county appointees had organized and engaged Attorney George C. Webb to represent them in the matter and they propose to carry it into court if necessary to maintain what they believe is a just claim.

The county appointees have been advised that a decision was handed down by the Fayette circuit court in 1904 er joining the university from collecting a similar fee from the county appointees, who protested against it.—Leader.
